Further Warnings

If you have been told by your doctor that you have an intolerance to some sugars, contact your doctor before using this medicinal product. Contains 3.2g of sucrose and 4.7g glucose per 10ml dose. This should be taken into account in patients with diabetes mellitus. This medicinal product contains small amounts of ethanol (alcohol), less than 100mg per 10ml dose.

If affected do not drive or use machines. Contains methylhydroxybenzoate (E218) which may cause allergic reactions (possibly delayed).

Side Effects

Nausea and vomiting can occur after taking large doses of this product. If you experience these or any other side effects that are not mentioned in this label-leaflet, stop taking the product and tell a doctor or pharmacist.

Reporting of side effects

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet.

You can also report side effects directly via the Yellow Card Scheme at:

www.mhra.gov.uk/yellowcard. By reporting side effects you can help provide more information on the safety of this medicine.
